MEMORANDUM FOR: Special Assistant to AD/CR

SUBJECT : Semi-Annual Report to President's Board
of Consultants on Foreign Intelligence Activities.

The following is submitted for consideration in compiling
OCR's contribution to subject report:

Interagency Cooperation

1. The use of Air Force's coding of Air Force information reports as input into the CIA Intellofax System was discontinued in May 1962. This was necessary because of processing delays caused by the procedural differences between the two systems as well as the tardy receipt of code sheets from the Air Force.

It is hoped as DIA develops its coding procedures, differences will be resolved which will make the translation into each others' system more practicable.
